

‘Sustainability – An Appetite for Improvement’

The Society held a conference with an associated exhibition at the Hilton Bracknell on Wednesday 12th March, to provide delegates with a varied programme of speakers on Sustainability.

The Society particularly wishes to express its thanks and appreciation for the URS Corporation, who kindly sponsored the day.

Speakers from BSI, URS, Cert ID, Waitrose, Tate & Lyle, DEFRA and 3363 covered the subject from various aspects, providing delegates with a set of wide ranging perspectives on the subject:

- The standards that will apply
- Governmental expectations and requirements
- Consultative assistance available
- The international issues and how they can be addressed
- Actual experiences and practical advice
- Retail, Manufacturing and Food Service perspectives

The presentations produced a range of challenging questions from delegates, and initial delegate feedback indicated that all attendees had obtained positive take from the day.

The allied exhibition with BioCote, Byotrol, CCFRA, Cert ID Europe, Comark, EHSS, RSSL, URS, Rokill, Envirowise, Johnson Diversey, and Muddy Boots provided delegates with a wider perspective on the subject, and some positive indications as to where help, service and assistance could be obtained.

The Society wishes to thank all speakers, Exhibitors and delegates for their contribution towards a successful day.
