Invite you to attend

Reducing the Environmental & Financial Impact of Refrigeration Technology

On: Tuesday 30th March 2010

At: West Midlands Regional Food Academy, Harper Adams College, Shropshire

Why you should attend?

With the UK's mandatory climate change and energy saving scheme (CRC Energy Efficiency Scheme) due to start in April 2010, the environmental impact of refrigeration and heat pump systems comes to the fore with a requirement to reduce energy consumption, together with improving energy efficiencies of the operating system.

Environmental policies and perceived "costs" on a business in order to achieve compliance can positively result in financial savings.

This seminar outlines the requirements of the Scheme and profiles some solutions to creating a high efficiency refrigeration system.

The programme provides "bite-sized" presentations on a number of solutions, together with an opportunity to discuss the wider issues relating to carbon footprinting; energy/waste savings etc with the tabletop exhibitors, speakers and delegates.

About the Speakers

A number of companies will be presenting across the scope of the topic, including innovative and cost saving technologies, together with utility savings.

Speakers include BPS/VRTX, on their alternative, patented, non chemical, eco friendly, ACOP L8 compliant cooling water treatment system; Brewfitt Ltd, discussing their new product "2flow"; GEA Gresco, the UK's largest industrial refrigeration manufacturer and supplier of specialised refrigeration systems; J & E Hall Ltd, winner of the Environmental Product of the Year at the Cooling Industry Awards, and UES on how to sustain utility levels whilst saving costs.

Discounts are available for Members of BFBI and Members of other Trade Associations including Dairy UK, SIBA, IBD, PPMA, BEA and many more.

Member Cost - £75.00 + VAT per delegate - Table Top Exhibitors inc 1 free delegate space £150.00 + VAT

Non Member Cost - £99.00 + VAT per delegate - Table Top Exhibitors inc 1 free delegate space £250.00 + VAT
