

16 December 2019

Reference: Update 4/ 19-20

To all interested parties:

**Updated Classifications of the Bivalve Mollusc Production Areas in England & Wales for 2019-20**

The Food Standards Agency wishes to notify you of the following update to the classifications of bivalve mollusc production areas. These amendments have been made under Regulation (EC) 854/2004 and take immediate effect.

**New Classifications**

**St Austell Bay – Landrion Point to Gerrans Point (*Ensis* spp.) B70AN**

Sampling commenced at the monitoring point recommended in the RMP assessment in July 2019. We have now received 10 sample results which are 100% compliant with 230 *E. coli*/100g. We are therefore recommending this site is classified as class A note 1.

**DESIGNATED BIVALVE MOLLUSC PRODUCTION AREAS IN ENGLAND AND WALES**

**New Classification**

Production Area	Bed Name	Species	Class	Comment	Food Authority
St Austell Bay	Landrion Point to Gerrans Point	<i>Ensis</i> spp.	A	1	Cornwall PHA

The classification list will be updated on the FSA website in due course:
