

25 October 2019

Reference: Update 3/ 19-20

To all interested parties:

Updated Classifications of the Bivalve Mollusc Production Areas in England & Wales for 2019-20

The Food Standards Agency wishes to notify you of the following update to the classifications of bivalve mollusc production areas. These amendments have been made under Regulation (EC) 854/2004 and take immediate effect.

Upgrade

Lantivet Bay – Lantivet Bay (*Ensis* spp.) B70AH

This B-LT site has been 100% compliant with 230 *E. coli*/100g in the last year (11 samples). It is also 97.0% compliant over the last three years (33 samples) with no results >700. A result of 24,000 *E. coli*/100g was recorded on 17 October 16, but this has now dropped off the three-year dataset.

In accordance with the protocol this site is upgraded to class A.

DESIGNATED BIVALVE MOLLUSC PRODUCTION AREAS IN ENGLAND AND WALES

Upgrade

Production Area	Bed Name	Species	Class	Comment	Food Authority
Lantivet Bay	Lantivet Bay	<i>Ensis</i> spp.	A		Cornwall PHA

The classification list will be updated on the FSA website in due course:
