FOOD SAFETY CULTURE

25th June 2020

Online Session

Summary details of course content

Building a business culture that supports a strong food safety ethic and behaviour is becoming more and more important. It is simply not enough to train your food handlers in prerequisite programs and HACCP plans. The right culture needs to be embedded throughout the business and be led from the top.

This course takes a step by step approach in how you can develop and maintain a positive food safety culture that delivers safe food to your customers and looks after your brand.

Content is particularly useful in providing key knowledge in achieving new and additional requirements within BRC Global Standard for Food Safety Issue 8. These include food safety culture (clause: 1.1.2) and management review (1.1.4).
